EDUCATION AND POST DOCT

Title	School / Institution
Electronic surveyor for Industry	Francesco Severi School, 1974-1979, Rome
Degree in Biological Science	University of Rome "La Sapienza", 1980-1984 (106/110)
Post academy	Training on analytical and diagnostics. Regina Elena Institute, Rome 1984-1986
Professional habilitation	State exam for professional qualification of biologist role on Italian registry (May 1985)
Discipline's expert	Lessons on "Applied microbiology" and "Environmental Microbiology" at University of Genoa

AFFILIATION AND MEMBERSHIPS

Membership	Description
SIMMOC - AMCLI	Academic membership as microbiologist adept for clinical and basic research http://www.simmoc.it/ ; http://www.amcli.it
ECBA and ONB	Member of the Italian and European Society of the Biologist http://www.onb.it ; http://www.europeanbiologists.org
ISSA - CISO	Information Systems Security Association http://www.issa.org ; Webcast member for Global Information Protection Strategies

PROFESSIONAL QUALIFICATIONS AND ATTESTATION

Org /Inst.	Location	Description
SELGE school	Rome, Italy (1980)	Analyst and software programming attestation
Sistema Institute	Padua, Italy (February - July 1983)	Haelio-technician for solar installation; design, project and efficacy appraisal
ISS, Rome	Rome, (1982)	Post doctoral course on Biostatistics (post-graduate statistician)
Dupont de Nemours	Philadelphia, Pennsylvania, USA (Oct 1990)	Biotechnology training - Instrumental and analytic data acquisition
Litton Bionetics Inc.,	Kensington, and NCI, Bethesda, Maryland, USA (1989-1991)	Biohazard and biosafety Protection Level 3, BSL3 training
Organon Tecnica Corp	Durham, North Carolina, USA (May 1990)	Course and Training for bio-safety procedure in Animal facilities training and laboratory experimentation
Mediterranean School for epidemiology	University of Milan, Italy	Quality Assurance in Diagnostics and reagents production accreditation
Milano Politecnico,	Milan (10-15 Sep 2002)	Course on Epidemiology and Biostatistics (ECM degree of Ministry of Health) - Siracusa, Italy (10 -17 June 2001)
University of Milan		VIA (Environmental Impact Evaluation). Course for auditor and project revision of great construction. Architectural crisis and risk analysis techniques
British Standard Institute	RINA, Genoa, November 1998	Lead Auditor certification course for :
http://www.bsiglobal.com	BSI-BSI-Italy, Monza May 2006 http://www.bsi-italy.com/index.xalter http://www.rina.it	a) Environmental Management System ISO 14001 (RINA, Genoa, November 1998. Cert.no. 99178-51159); b) Information Security System ISO27001 (BSI-Italy, Monza May 2006) BSI-IRCA

TECHNICAL SKILLS

Area	Description
Languages	Fluent English and Italian mother language. Portuguese: verbal
Systems	Applications: Third parties and internally developed front-office and middle-office systems. Analysis and design of processes as product manager for software life-cycle Infrastructure: HP-UX, Xenix, Linux installation (SUSE, Mandrake); Windows Servers (2000/2003 LDAP) Network: Cisco and US-Robotics routers/firewall security, RAS / VPNs (UDP) Databases: Any OLEDB compliant DB Engine via ADO and COM+ Interface Web: Apache, Abyss and IIS Security: Nessus, IIS, Tiger-suite, Ethereal, NetView. Development: SQL, Visual Basic, shell programming, blo-perl, prolog, smalltalk, Ruby. I developed a Visual Basic client server tool based on ODBC and ADO with Oracle, and MS SQL databases and scientific algorithm modules

HOBBIES AND TALENTS

Area	Description
Music	Middle-age instruments re-arrangements, jazz, bossa nova, flamenco
Sport & body minded	Athletic coaching (Hand-ball), horse trekking, tennis, snorkelling, yoga
Collection	Ancient manuscripts and religious iconographies digitalisation; antique leather purses
Computation sciences	...

WORK EXPERIENCE (HISTORICAL SORT)

software development and ICT services

SALVATORE REINA

Corso Solferino 5/6 – 16122
Genoa (Italy)

reina@village.it

+39 010 839 8315

+39 335 606 8908

Nationality	Italian
Date of Birth	January 10th 1960
Marital Status	Single
Location	Genoa and Rome, Italy

EDUCATION

March 1996	Discipline expert (Cultore della Materia) and Supplier Member of exam commission for Applied Microbiology. MFN Science Faculty, University of Genoa, Italy
1989-1990	Entitled PhD in Biological Science as Principal Investigator. Laboratory of Tumor Cell Biology, National Cancer Institute, National Institute of Health, Bethesda, Maryland, USA
1984-1986	Regina Elena Institute, Rome. Post Doct fellowships
1980-1984	University of Rome "La Sapienza", Rome
1974-1979	Academic Degree (Laurea) in Biological Science. Final mark 106/110 High School Francesco Severi, Rome

PROFESSIONAL QUALIFICATIONS

2006 on going	CISM/CISA (Certified Information System Manager/Auditor) ISACA exam with Italian Chapter scheduled on Dec 2006 in Rome
Jun 2006	Lead Auditor for Information Security System ISO27001 BSI-IRCA (BSI-Italy, Monza May 2006);
Sep 2002	Auditor and project revision for VIA (Environmental Impact Evaluation) scheme. Architectural crisis and risk analysis evaluator. Milan. Politecnico, University of Milan, Italy
Nov 1998	Lead Auditor for Environmental Management System ISO 14001 (RINA, Genoa, Cert.no. 99178-51159);
May 1985	Chartered Biologist (Italian Registry of professionals)

OTHER**Further Experiences**

Jun 2001	Epidemiology and Biostatistics consultant (ECM degree of Ministry of Health) - Siracusa, Italy (Mediterranean School for epidemiology University of Milan, Italy)
Sep 1990	Operator for Bio-safety procedure in Animal facilities and laboratory experimentation . Litton Bionetics Inc., Kensington, and NCI. Bethesda, Maryland, USA
May 1990	Quality Assurance Manager in Diagnostics and reagents production accreditation scheme. Organon Tecnica Corp Durham, North Caroline, USA (May 1990)
Oct 1989	Instruments and analytic operator in Biohazard and biosafety. Protection Level 3, BSL3. Dupont de Nemours (Philadelphia, Pennsylvania, USA)

ACHIEVEMENTS

After decades of academical projects and contractual consultancy Dott. Reina has achieved a relevant ability in deal with high-technological multiple competence contexts. Educational supervising and senior project management activities were achieved with multiracial people interaction to convene under a sober harmonisation of articulated situation. Common interests of company policy and smooth technology integration was accomplished by improving human relationships and technical know-how transfer. Dott. Reina has learned how to motivate and address personalities value toward a collaborative workgroup.

Such personality's style allowed to gain collaborator trust, maintain a consolidated technical esteem, thus achieving a profitable work success.

AFFILIATION & MEMBERSHIP

SIMMOG - AMCLI	Academic membership as microbiologist for clinical and basic research
ECBA and ONB	Member of the Italian and European Society of the Biologist
ISSA - CISO	Information Systems Security Association http://www.issa.org : Webcast member for Global Information Protection Strategies

SKILLS

Languages Italian, English (verbal Portuguese)

SystemsApplications:

Third parties and internally developed front-office and middle-office systems. Analysis and design of processes as product manager for software life-cycle

Infrastructure: HP-UX, Xenix, Linux installation (SUSE, Mandrake); Windows Servers (2000/2003 LDAP)

Network: Cisco and US-Robotics routers/firewall security, RAS / VPNs (UDP)

Databases: Any OLEDB compliant DB Engine via ADO and COM+ interface

Web: Apache, Abyss and IIS

Security: Nessus, IIS, Tiger-suite, Ethereal, NetView.

Development: SQL, Visual Basic, shell programming, bio-perl, prolog, smalltalk, Ruby.

Custom Visual Basic client/server apps based on ODBC and ADO with Oracle, and MS SQL databases and scientific algorithm modules

BUSINESS EXPERIENCE**Company Consultant – R & D support, Quality Assurance and training**

Jan 2005 – today	Security IT manager - P.A.MO.TER. Scral Genoa, Italy. Data Protection System and privacy (Legislative Decree no.196/2003); Network System administration; Automation of AutoCAD meta-classification and authoring of projecting operator. Documentation, training and encryption software for data retention security.

DICHIARAZIONE

Conosco il dott. Salvatore Reina sino dal 1986 quando ha iniziato la sua attività nel reparto di Virologia dell'Istituto condotto dal dott. O. Varnier. In seguito, grazie alle competenze del dott. Reina e' iniziata una collaborazione riguardante lo studio dell'effetto postantibiotico. L'esperienza ha portato all'elaborazione di un nuovo parametro per la valutazione di questo fenomeno che e' stata oggetto di alcune pubblicazioni su riviste internazionali e comunicazione a Congressi nazionali ed internazionali. L'attiva collaborazione con il dott. Reina e' stata estesa al campo delle cellule superiori dove sono stati ottenuti risultati incoraggianti per l'impiego di antibiotici nell'inibizione in vitro di linee cellulari tumorali. Sono stati inoltre pubblicati studi riguardanti la possibilita' di ottenere scambio di materiale genetico in batteri gram-negativi resi sferoplasti e, in fase di attuazione una ricerca, mediante un sistema batterico originale, di un inibitore della topoisomerasi batterica.

Il dott. Reina ha sempre svolto l'attivita' di ricerca con grande entusiasmo, professionalita', dedizione e con originalita' di impostazione. Egli e' dotato di completa padronanza delle tecniche di indagine nonche' di una elevata conoscenza della letteratura.

Pur non essendo investito ufficialmente di compiti didattici il dott. Reina ha tenuto diversi seminari agli studenti del corso di Microbiologia Applicata.

Posso affermare che il dott. Reina ha svolto con assiduita', diligenza, spirito di sacrificio, volonta' e passione il lavoro in collaborazione. Egli possiede spiccate attitudini per la ricerca scientifica, ottime capacita' tecniche e rigoroso spirito critico nella valutazione dei risultati.

Sono pertanto lieto di rilasciargli questo personale attestato di stima e considerazione che mi auguro possa contribuire a fargli raggiungere quelle mete che legittimamente aspira.

DIRECTOR:

SURAIYA RASHEED, Ph.D.
(213) 224-7415

September 9, 1987

The Committee of the
Associazione Italia per La
Picerca SUL Cancero (AIRC)

Gentlemen,

This letter is to confirm my willingness to accept Dr. Salvatore Reina for a post-doctoral training program in my laboratory.

Dr. Reina is interested in learning diagnostic techniques for the detection of human T-cell leukemia virus (HTLV-I and II infections in humans. Although these viruses are not prevalent in Italy, patients with Human Immunodeficiency Virus (HIV) have been shown to be infected with both HTLV-I and HTLV-II. Furthermore, since HIV-associated neoplasia are common among patients with AIDS, it will be extremely useful to learn diagnostic procedures for the isolation of retroviruses from the blood and neoplastic tumors of patients with dual infections.

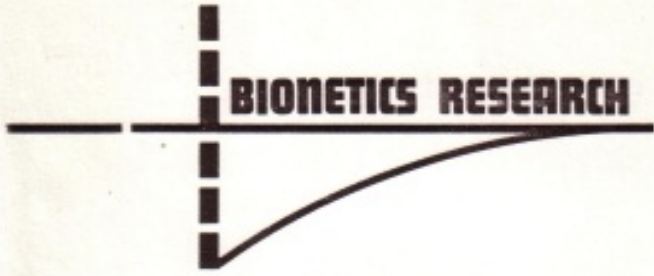

Since my laboratory is one of the major AIDS research and reference centers in this country, all virus isolations and confirmatory tests for the Los Angeles County area are performed in my laboratory. After discussing with Dr. Oliviero Varnier of Istituto di Microbiologia, Genova, Italy, I am convinced that it will be important for Italian scientists to acquire modern technologies and expertise in diagnostic procedures for identification of retrovirus-induced diseases in humans. This is pertinent and timely because the intravenous drug abusers in Italy may be at risk for retroviral infections of both HIV, HTLV-I or HTLV-II. I therefore strongly recommend that Dr. Reina be encouraged to join a training program and learn diagnostic and other research techniques in human retrovirology.

If you have further questions, please do not hesitate to write to me.

Sincerely,

A handwritten signature in dark ink, appearing to read "S Rasheed".

Suraiya Rasheed, Ph.D.
Professor of Pathology

BIONETICS RESEARCH

April 5, 1989

Dear Sir or Madam:

My name is Phillip D. Markham and I am employed by Bionetics Research, Inc., Kensington, MD as head of the Tumor Biology Section of the Department of Cell Biology. The purpose of this letter is to inform you of my association with Dr. Salvo Reina of the Institute of Microbiology, Genova, Italy for the past seven months.

Since Dr. Reina's arrival in this area August 15, 1988, he has been involved in extensive collaborative research programs with my laboratory, many of which are in progress at our facilities. A major goal of our ongoing projects is the investigation of the infection of the domestic rabbit by the causative agent of AIDS, i.e., the human immunodeficiency virus type 1 (HIV-1) and the possibility of developing this as a model for procedures to study the prevention and treatment of AIDS. A great deal of progress has been made during these months and I look forward to a continuation of this fruitful collaboration.

Sincerely,

Phillip D. Markham, Ph.D.
Head, Tumor Biology

April 9, 1989

To whom it may concern

Dr. Salvatore Reina is a guest worker in the Laboratory of Tumor Cell Biology since August of 1988. Dr. Reina came from the Institute of Microbiology of Genova, Italy.

Our laboratory has continued interest in a project being jointly done between LTCB and the Institute of Microbiology viz., the development of a rabbit model for vaccine purposes. They have had success in accomplishing this to a degree, although it needs more work. I hope that Dr. Reina will continue to be associated with this project because the successes obtained in this area directly reflect his contribution.

In addition, Dr. Reina has also been following a number of persons with HTLV-I like infection. It would be exciting to follow them to isolate the virus infecting these people to establish this pocket of endemicity in the southern part of Italy. This may also shed light on connection with Portuguese and north african traffic. It would also interesting to study more people in the area for the extent of infection by using the new technology of Polymerase Chain Reaction and cronology of this infection.

with best regard

Bethesda, Maryland 20205

Dear Doctor Gallo,

Dr. Salvatore Reina during graduation course has prepared his thesis, under my direction, in this Department. The subject of his experimental thesis, is the "Analogic models of electric properties of neurons membrane". His personal contribution to the different aspects of this work has been particularly appreciated.

From my experience of collaboration with Dr. S. Reina I have highly appreciated his activity, his critical attitude and the interest in the scientific problems.

I believe that Dr. S. Reina will be suitable for a project concerning the inhibitors of replication of the retroviruses, a topics he has studied in the last years, after graduation.

I therefore believe that Dr. S. Reina deserves full consideration for a fellowship to work at NIH.

Bethesda, Maryland 20205

Roma, March 28, 1988

Dear Doctor Gallo,

I am writing to you in reference to Dr. Salvatore Reina who frequented the Laboratory of Clinical Pathology of the Regina Elena Institute for Cancer Research of Roma for one year. Here he gained an intense theoretic and practical experience in clinical analyses, preparing the program stated by the current law.

Other than learning the standard techniques, Dr. Reina was extremely interested in the conceptual problems related to the tests performed, going beyond their simple execution and quality controls.

Given his rapid learning ability and a noteworthy knowledge of computers, he was able to work on one of the studies the Laboratory was completing concerning the effects of Cisplatin administration on serum levels of iron and related proteins.

Vitality and curiosity, if controlled, are certainly very useful qualities for many different kinds of a biological work. Dr. Reina possesses these qualities and I think he will be a good researcher when actively involved in a group. I am happy to learn that he has the possibility of obtaining a fellowship to work at NIH.

I think he will be suitable for a project concerning the inhibitors of replication of the Retroviruses, a topic he has studied over the last few years.

I wish Salvatore Reina the success I believe he merits.

Sincerely yours

Att. Dr Salvo Reina
C.so Solferino 5/6
16122 Genova

Gentile Dr. Reina

Le scriviamo per ringraziarla della sua proposta che in modo disinteressato ci ha introdotto la sua piattaforma software dedicata a soluzioni in materia di cifratura e crittologia.

Riteniamo la sua tecnologia professionale e altamente qualificata. In particolare siamo interessati ad acquisire il suo modulo SUITE196 sia con il proposito di dotare i clients dei nostri uffici segretariali che con quello di fornire un middle-ware di integrazione ai nostri programmatori software.

I nostri dipartimenti sono impegnati nel disegno di un vasto progetto di gestione documentale per il quale sarà indispensabile integrare uno strato di cifratura che garantisca sia la protezione che la riservatezza di ogni documento prodotto a livello corporativo.

Le caratteristiche tecniche e funzionali del suo software soddisfano i requisiti che saranno per noi essenziali quando avrà inizio la fase di realizzazione progettuale.

Siamo felici di informarla che il suo software verrà considerato dalla nostra organizzazione come candidato elettivo per il trattamento dei documenti interni perchè siano essi resi conformi alle prescrizioni di legge che tutelano la riservatezza e preservano l'integrità dei dati.

Sarà nostra cura contattarla per avvalerci della sua competenza non appena le prassi progettuali dei nostri dipartimenti saranno formalizzate.

Distinti saluti

Gianfredi Pietrantonì

AFI - Information Systems
and Technology Division

Extract Translation

Dear Dr Reina

We are writing to thank you for the presentation of your software solution oriented to the integration of cyphering and cryptography

We believe that your technology is highly qualified and strongly professional. In details, we are oriented in acquiring the CIFRA196 module in order to either support our client workstations in the secretariat offices or integrate middle-ware developmet of our programmers division.

Our departments are currently designing a vast project for the document management across all the organisation and you proposal perfectly fits the technical requirements.

.....

We are happy to inform you that is our intent to candidate as elective choice your software as soon as the project will be formalised and initiates.

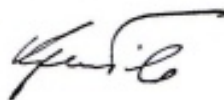

La Società Italiana di Andrologia (SIA), da sempre impegnata nei processi di Educazione Continua in Medicina, si serve dell'ausilio di strumenti e software utili ai fini didattici, per i numerosi corsi di formazione che organizza.

In tale ambito è stato valutato il software SemeBox, orientato alla seminologia, realizzato e messo a disposizione dal Dott. Reina e dai suoi collaboratori.

Infatti nei corsi dedicati alla Seminologia e alla Sterilità di Coppia, il Semebox si è rilevato uno mezzo di grande utilità didattica, clinica ed un valido aiuto per uniformare i referti seminali secondo le norme OMS.

La Società Italiana di Andrologia è pertanto lieta di riconoscere la valenza didattica della soluzione informatica Semebox.

To whom it my concern

I know dr. Salvatore Reina since 1968 when he began his activities in the department of Virology of this Institution in collaboration with Dr. O. Varnier. Then, thanks to the expertise of Dr. Reina began a collaboration with our group concerning the study of the post antibiotic effect. Experience has led to the development of a new parameter for the evaluation of the bacterial growth kinetic during this phenomenon. This study has been the subject of several publications in international journals and conferences of national and international communication. The co-operation with Dr. Reina was subsequently extended to the field of eucariotic cells where data has been obtained for encouraging the use of antibiotics in inhibiting tumor cell lines. The results of studies concerning the possibility of exchange of genetic material obtained in gram-negative spheroplasts have been also published, an event never previously obtained that may suggest the application of this technique in bacterial species where a system for exchange genetic material is not known.

Dr. Reina has always performed the research with great enthusiasm, professionalism, dedication and originality of approach. He has complete knowledge of the techniques of investigation and of the literature. Although not officially invested with teaching tasks, dott. Reina has held several seminars and lectures to students of Applied Microbiology and was one of the components of the examination boards of the same course. I can say that Dr. Reina has played with assiduity, diligence, spirit of sacrifice, determination and passion work together. He has marked aptitudes for scientific research, excellent technical skills in critical thinking and rigorous evaluation of the results.

I am therefore pleased to release this personal sign of esteem and consideration which I hope will help him reach those goals that legitimately aspire.

Gentile Dott. Reina

Le scriviamo per ringraziarla della sua professionale disponibilità, messa in modo disinteressato al servizio delle lezioni del Corso "Infertilità di coppia : diagnosi e terapie" svolto nell'aula Congressi del nostro ospedale nelle date 27-28 maggio 2005.

In quella occasione lei ha voluto adiuvarci il responsabile del Corso Dott. Mauro Costa per le lezioni sui temi della sterilità di coppia e di andrologia, pertanto riteniamo di riconoscere il suo contributo scientifico all'iniziativa.

A chiunque possa interessare:

Il Dipartimento di Scienze Genetiche, perinatali e ginecologiche dell'Osp. Galliera ha utilizzato il dispositivo SemeBox messo a disposizione dal Dott. Reina e dai suoi partners tecnologici, per le sessioni teorico/pratiche dei temi svolti dal corso sopra citato, durante le quali è stato possibile constatare e riconoscere la valenza didattica della soluzione informatica SemeBox.

Il Direttore del Dipartimento

Prof. Dagna-Bricarelli

Prot. n° 184

Oggetto: Applicativo Seme Soft – referenze e ringraziamenti.

Con la presente si manifesta al dottor Salvo Reina, produttore dell'applicativo Seme Soft, i nostri ringraziamenti per avere concesso, a titolo gratuito, il suddetto prodotto in uso presso il nostro Laboratorio di Andrologia dall'anno 2002.

L'applicativo Seme Soft si è dimostrato, e tuttora si dimostra, un sistema efficace e soddisfacente per la gestione dei pazienti che si rivolgono al nostro Laboratorio di Seminologia, consentendo una esauriente gestione di accettazione / refertazione ed un controllo efficace dei parametri quantitativi e qualitativi delle analisi.

RingraziandoLa per la disponibilità e professionalità messa a disposizione del nostro Dipartimento di Ginecologia e Ostetricia e confidando di poterci ancora avvalere della Sua collaborazione per i nostri futuri progetti, Le porgiamo i più cordiali saluti.

Struttura Semplice : **MEDICINA DELLA PROCREAZIONE**
responsabile Dr Mauro Costa

OGGETTO : accreditamento dei programmi software SemeSoft e RiproSoft

Gentile Dott. Reina

Scrivo questa lettera per ringraziarla ed esprimere la mia soddisfazione per il suo ruolo consulenziale. Il nostro Centro PMA opera fin dal suo primo giorno di attività secondo standard operativi di eccellenza. La nostra attività di assistenza pertiene la medicina, la clinica e la ricerca scientifica; ogni ambito viene trattato dai medici che quotidianamente usano i suoi strumenti software.

Il suo prodotto **RiproSoft** ci assiste nella routine giornaliera per la raccolta dati e la refertazione alle coppie di pazienti, ci fornisce un aiuto come rapido strumento sintetico nella valutazione della dei casi complessi e rende conforme alle prescrizioni di legge il trattamento dei dati sensibili in materia di Nuovo Codice per la Tutela dei Dati Personali (Dlgs.196/03)

Il Centro di PMA le è inoltre grato per aver sostenuto con il programma software **SemeSoft** anche i laboratori di seminologia che producono la refertazione diagnostica andrologica necessaria ai nostri medici nei trattamenti della sterilità di coppia. I laboratori di Analisi Cliniche del nostro Ospedale hanno usato il suo software e la sua competenza dal 2003 senza soluzione di continuità.

Infine le esprimo gratitudine per la sua professionalità. I nostri operatori, informatici, medici e paramedici riconoscono la sua immediata disponibilità nel fornire competenza tecnica e formazione scientifica.

Da anni, la sua consulenza multidisciplinare ed il suo supporto bio-informatico ci ha permesso di erogare le nostre prestazioni sanitarie senza interruzione, armonizzando la tecnologia dei computer con la medicina dell'uomo.

Oggetto: gradimento

La presente per significarle ogni nostra più viva soddisfazione nella valutazione del software ViroAq, da Lei realizzato per la gestione dei controlli di qualità interni nel Laboratorio di analisi.

Se ne apprezza soprattutto la facilità di utilizzo, unita ad una grafica intuitiva e snella, senza per questo dover rinunciare alla completezza ed all'efficacia delle utilità contenute.

Se ne consiglia l'uso in tutti i laboratori che fanno uso di sistemi CQI.

Oggetto : lettera di accreditamento

Caro Dott. Reina

Il nostro laboratorio ha fruito delle sue competenze sin dal 1994. La collaborazione periodica ha investito gli ambiti di ricerca di base, di bioinformatica e biostatistica e vorrei con questo scritto esprimerLe gratitudine e riconoscenza per il Suo operato.

In tutte le circostanze di cooperazione il Suo ruolo si è integrato con le nostre esigenze progettuali e valutato il suo contributo utile sia per l'approccio teorico che applicativo sul campo.

In particolare, La ringrazio per la Sua consulenza informatica che ha avuto una valenza formativa che è stata occasione di alfabetizzazione informatica per i nostri operatori.

La ringrazio per aver sempre manifestato una disponibilità continua e una attitudine professionale alla puntualità negli impegni sostenuti.

Nel manifestarLe il desiderio di poter in futuro continuare a rivolgerci alle sue competenze Le manifesto la mia personale stima

cordiali saluti

La presente lettera quale attestato di credito e apprezzamento per l'attività del Dott. Salvo Reina che nel 1992 ho avuto modo di conoscere a seguito della attività consulenziale di formazione e sviluppo di software per la Assicurazione Qualità applicata, in quella occasione, nel settore Automotive presso Cooper SpA (Stabilitmento Champion di Casarsa Ligure, Ge).

In seguito grazie alla sua competenza nell'ambito degli Audit di Sistemi Qualità e di Controllo Statistico di Processo, ho potuto collaborare direttamente con il Dott. Reina nella creazione di Corsi di SPC per il RINA, Registro Navali Italiano, di Genova.

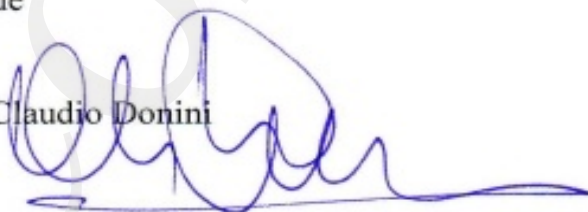

Attualmente ho modo di esprimere diretta gratitudine per la competenza informatica del Dott. Reina con il quale sto progettando un software di supporto alle mie pubblicazioni con l'editore Franco Angeli.

Grazie al contributo originale e unico potrò infatti trattare le tematiche della Lean Six Sigma con un software statistico di alto livello scientifico. Peraltro, le attività di sistemista e ICT del Dott. Reina mi risulta siano state apprezzate anche in altri ambiti sempre in modo positivo.

Stimo il Dott. Reina anche sul piano personale e nell'ambito della mia attività professionale non esito ad indicarlo alle persone che necessitano di una consulenza affidabile e competente.

In fede

Ing. Claudio Donini

TO WHOM IT MAY CONCERN

Marintec Srl is an Underwriting Agency located in Genoa specialised in the intermediation and signing of marine and ancillary risks which operates in the global market scenario both as Lloyd's Correspondent and as Mandatory of many International first class Companies. During the years Marintec has widened its significant presence even in all other classes of risks.

Because of its business partners, providers, insurance's companies and obviously clients, Marintec Srl needed to face an incremental support of the Information Technology in order to maintain business continuity, anti-intrusion cautions, safety and confidentiality measures for the whole back-office activities.

Since January 2007 Marintec Srl acquainted Dr Reina to leverage the standard of IT tidiness by reviewing either the hardware infrastructure and the software ERP/CRM platforms. Moreover, he completely redesigned the company external image by taking care of the official web site. His diligence also impacted on the privacy system and the IT regulatory praxis which require determination and passion.

Thank to the Dr Reina expertise, our company quickly achieved an entire new Total Quality Management inspired according ISO 27001, ISO 2000, and ITIL virtuous IT system. All the job functions were traversed by the Security features for either human and assets resources.

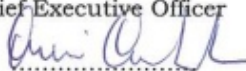

Dr Reina combines an impressive technical competence with a friendly attitude towards people to whom he interacts. His academic style, let everyone getting favourably accustomed by the way of his teaching and explaining. His willingness goes beyond the duties and an exceeding energy allows him to accomplish even tough tasks. Above all, he denoted a special capacity of coupling rigorous analysis methodology with a simple on-the-field performances.

I especially value Dr Reina also for his humanity and rich personality; I consider a privilege to have had him as close Consultant and Advisor. His role consistently contributed to the business even in the critical phases because of a contagious enthusiasm and a peculiar dedication.

It is a pleasure to me to acknowledge Dr Reina with my esteem and intimate gratefulness to legitimate his aspiration as professionals.

Genoa November 10th 2011

Ciro Carotenuto
Chief Executive Officer

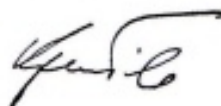

La Società Italiana di Andrologia (SIA), da sempre impegnata nei processi di Educazione Continua in Medicina, si serve dell'ausilio di strumenti e software utili ai fini didattici, per i numerosi corsi di formazione che organizza.

In tale ambito è stato valutato il software SemeBox, orientato alla seminologia, realizzato e messo a disposizione dal Dott. Reina e dai suoi collaboratori.

Infatti nei corsi dedicati alla Seminologia e alla Sterilità di Coppia, il Semebox si è rilevato uno mezzo di grande utilità didattica, clinica ed un valido aiuto per uniformare i referti seminali secondo le norme OMS.

La Società Italiana di Andrologia è pertanto lieta di riconoscere la valenza didattica della soluzione informatica Semebox.

Our Ref.:

Your Ref.:

Rome Jul 14th 2005

Dear Dr Reina

We wish to thank you for your proposal which describes your middle-ware technology for software cryptology and ciphering.

We judge your works professional and highly qualified. More on details, we are interested in acquiring the module named CIFRA196; to us, it seems to be very suitable to possibly test such an application on secretarial workstations as middle-ware component usable by our programmers as integration function-library.

Our departments are currently working on the design of a much larger project of Distributed Documents Management (DDM) the aim of which it will be to implement confidentiality, ciphering and data protection across all the corporate IT activities.

The features of your software, by the way fit and satisfy the requisites hopefully needed for some specific application addressed to the safety and the protection of data transferred and/or moved with external storage devices.

We are happy to inform you that we shall certainly consider your software and you skills, as soon as the DDM project will start because we found particularly suitable and adaptable some specific features of CIFRA196.

As further fact, we can electively candidate your module because of its compliance and conformity with either Italian law for privacy Dlgs196/03 and ISO27001/ISO20000 requirements adherence.

Best Regards

To whom it may concern

Pietra Ligure, 25th January 2012

Dr. Salvatore Reina and I met in 1984 at the Laboratory of Retrovirology of the Institute of Microbiology School of Medicine in Genoa when both were approaching our activity as researchers in a field, Human Retrovirology, that was still greatly unexplored, but of large interest both for its scientific and social impact.

Under the supervision of dr. O.E. Varnier, we were stimulated to setup new and still experimental technologies as specific serological tests (screening and confirmatory assays) and molecular detection of viral genomes in human samples, as well as viral isolation and characterization. Our group was also involved in the attempt to set up a possible animal model of HIV infection. Moreover the dr. Reina's skill in informatics permitted us to collect a huge database and to perform statistic studies of great interest.

The expertise that we developed, allowed us to collaborate with local and national Infectious Diseases departments and perform epidemiological and clinical studies that produced several scientific publications on indexed journals, and obtain research grants from National and International Institutions.

The collaboration with dr. Reina continued in the following years when I moved from the Institute of Microbiology in Genoa to organize the Laboratory of Virology of the Hospital San Raffaele in Milan, and still continues in my actual site of work, and is particularly related to innovations in bioinformatics and biostatistics.

The enthusiasm and energy of dr. Reina, together with his bright intelligence and professionalism has always allowed us to obtain great results in the activities that we performed together as well as, for myself, to benefit from his useful advices.

I am therefore happy to manifest my extreme esteem as well as my friendship to dr. Reina and wish him to reach all the goals that legitimately aspire

DICHIARAZIONE

Il nostro Centro di Diagnosi e Terapia dell'infertilità si avvale delle competenze del Dott. Reina dal 2000 come referente privacy.

Il dott. Reina ha fornito il DPS e la formazione ai sensi del Dlg196/03, ma, soprattutto, come auditor Iso27001 e Iso20000, ha indicato ai servizi informativi dell'ospedale migliori prassi per l'effettuazione di copie di sicurezza per la gestione del database contenenti i dati sensibili delle coppie ed il repertorio CRM.

La nostra struttura certificata ISO9001 segue anche la normazione secondaria del Dlg191/07 relativa ai sistemi qualità per la PMA

In questo ambito il dott. Reina ha anche svolto lezioni e formazione di Total Quality Management in tema di rischio biologico integrando procedure ISO, Dlg81 e privacy.

Il Dr Reina ha fornito un apporto puntuale e competente, con una disponibilità full time a risolvere in tempo reale qualsiasi problema contingente inerente la materia di sua competenza professionale.
